SANTHEEPKUMAR VEERASAMY

Technical Lead | Staff Full-Stack & Cloud Solutions Architect

+91 86676 62978 | devsantheep@gmail.com | linkedin.com/in/santheepkumar | github.com/Santheepkumar | strawhatdevs.com | youtube.com/@StrawHatDevs | sk.strawhatdevs.com

PROFESSIONAL SUMMARY

Impact-driven Technical Lead and Staff Software Architect with 7+ years of experience leading the technical vision, architectural design, and end-to-end delivery of complex enterprise software systems. Comprehensive hands-on expertise spanning reactive frontend architectures, distributed microservices backends, cloud infrastructure orchestration (AWS/GCP/Docker/K8s), and automated CI/CD release engineering. Proven engineering leader and multiplier who establishes engineering best practices, implements automated quality gates, and mentors cross-functional engineering pods to boost team delivery velocity by 35% while reducing defect escapes. Known for solving high-complexity architectural challenges and accelerating time-to-market—including delivering an enterprise web platform MVP in 2 months (compressing an 8-month baseline by 75%). Founder and Chief Architect of Straw Hat Devs (strawhatdevs.com) and technical educator with 200+ architecture and programming videos, recognized for thought leadership in system design, distributed systems, and modern AI-assisted software engineering.

CORE COMPETENCIES

▸ **Architectural Governance & System Design**	▸ **Cloud Infrastructure (AWS/GCP/K8s)**	▸ **Automated CI/CD & Release Engineering**
▸ **Microservices & Event-Driven Systems**	▸ **Technical Mentorship & Code Standards**	▸ **Engineering Velocity (+35% Boost)**
▸ **Zero-Downtime Releases & Reliability**	▸ **Cross-Functional Stakeholder Alignment**	▸ **IoT & Hardware System Integration**
▸ **AI-Assisted Development Workflows**	▸ **Developer Education & Architecture Content**	▸ **High Availability & Scalability**

TECHNICAL SKILLS

Architectural Leadership	Distributed Systems, Microservices, Event-Driven Architecture, Monorepos (Turborepo), RESTful APIs, GraphQL, Redis, Kafka, RabbitMQ, Zero-Downtime Releases
Cloud & CI/CD	Docker, Kubernetes, AWS (ECS, Lambda, S3, RDS, CloudFront), GCP, GitHub Actions, Bitbucket Pipelines, Jenkins, Vercel, Infrastructure as Code (IaC), Sentry, Axiom
Engineering Governance	Architectural Roadmapping, Technical Mentorship, Code Review Standards, Automated Quality Gates, Cross-Functional Alignment, AI-Assisted Development Standards
Frontend	React, Next.js (App & Pages Router), TypeScript, JavaScript, React Native, Expo, Tailwind CSS, State Management (Zustand, Redux)
Backend & Data	Node.js, Express.js, NestJS, GoLang, PostgreSQL, MongoDB, Supabase, TypeORM, Prisma, Mongoose, Data Modeling, Query Tuning
Testing & QA	Playwright, Jest, React Testing Library, End-to-End Automated Testing, Static Analysis, CI Regression Suites
CMS & Tools	Sanity, WordPress, Supabase, Axiom, Sentry, Boulevard, Webflow

FOUNDER, CREATOR & COMMUNITY LEADERSHIP

Founder & Chief Architect | Straw Hat Devs (strawhatdevs.com) *Mar 2025 – Present*

- **Platform Architecture & Delivery:** Conceived, architected, and built strawhatdevs.com from scratch as a comprehensive developer learning platform offering structured courses in full-stack engineering, system design, and cloud infrastructure.
- **Cloud Architecture & DevOps:** Engineered the platform with Next.js (App Router), Supabase, PostgreSQL, Sanity CMS, and Axiom, managed with fully automated CI/CD pipelines deploying to serverless cloud infrastructure.
- **Curriculum & Mentorship at Scale:** Authored comprehensive project-based system design and cloud architecture curricula, mentoring hundreds of software developers in building enterprise-grade applications.

Technical Content Creator & Educator | Straw Hat Devs (YouTube) *200+ Videos Published*

- **Architectural Thought Leadership:** Produced and published 200+ deep-dive videos on software architecture, microservices, cloud deployments, full-stack frameworks, and distributed system design patterns.

- **Global Community Impact:** Built an engaged global audience of developers through code-first architectural breakdowns of real-world enterprise systems.

PROFESSIONAL EXPERIENCE

Staff Engineer / Technical Lead | Tuna Software Solution *Jun 2025 – Present*

- **Architectural Ownership:** Owned the technical roadmap, architectural blueprints, and full delivery lifecycle across frontend, backend microservices, and DevOps for two concurrent enterprise software platforms.
- **Engineering Velocity & CI/CD Governance:** Instituted modern engineering standards including automated CI/CD deployment pipelines (GitHub Actions/Docker), branch protection rules, automated test runners, and structured code reviews—boosting team velocity by 35% and reducing defects.
- **Platform Modernization & Web Migration:** Led the architectural transformation of an Android kiosk platform into a cloud-native web application, streamlining multi-device deployments and eliminating hardware operational friction.
- **Cross-Functional Leadership:** Served as principal technical liaison between engineering teams and executive product stakeholders, translating business goals into robust technical specifications and de-risking dependencies.

Senior Software Engineer & Lead Architect | Heady *May 2023 – Jun 2025*

- **Enterprise Client Technical Leadership:** Served as lead architect and client-facing technical lead for tier-1 enterprise partnerships (HeyDay Skin Care, Chuck E. Cheese, The Lash Lounge), translating high-level business goals into scalable, production-grade applications.
- **Rapid MVP Delivery (75% Timeline Compression):** Architected and delivered the Chuck E. Cheese customer experience web platform MVP in 2 months as a sole contributor, compressing an estimated 8-month delivery timeline by 75% through modular system design and rapid iteration.
- **High-Availability Microservices Ecosystem:** Architected a microservices-based booking and eCommerce infrastructure for HeyDay Skin Care integrated with Boulevard API, Redis caching, and resilient AWS cloud services, sustaining 99.9% uptime during peak holiday booking surges.
- **DevOps & Pipeline Automation:** Engineered high-conversion booking engines and custom CRM subscription systems (The Lash Lounge & Vmeals) backed by automated Bitbucket/GitHub Actions deployment pipelines to AWS and Vercel.
- **Technical Mentorship & AI-Assisted Workflows:** Mentored 6+ junior and mid-level engineers in distributed system design, clean architecture, and modern AI-assisted engineering workflows, significantly improving code quality and team autonomy.

Principal Software Engineer | HOD Digitals *Nov 2022 – May 2023*

- **Team Leadership & System Scalability:** Provided technical direction and architectural governance to a distributed team of engineers across multiple concurrent client product lines.
- **Decoupled Architecture:** Architected decoupled microservices, relational database schemas (PostgreSQL), and cloud deployment blueprints that lowered cloud infrastructure expenditures while improving horizontal scalability under traffic spikes.
- **Stakeholder Governance:** Acted as primary technical bridge between engineering pods and executive business stakeholders, managing sprint commitments, mitigating delivery bottlenecks, and driving engineering predictability.

Software Engineer | HOD Digitals *Sep 2021 – Nov 2022*

- **Full-Lifecycle Engineering:** Delivered scalable web applications from requirements analysis through deployment across multiple client projects.
- **API & UI Development:** Engineered high-throughput RESTful APIs and modern reactive user interfaces based on direct client feedback, accelerating feature velocity and user adoption.
- **CI/CD Integration:** Integrated automated testing suites into deployment pipelines, ensuring zero-downtime releases and high code coverage.

Full Stack Developer | Skematix Technologies *Dec 2019 – Sep 2021*

- **Full-Stack Application Delivery:** Developed and maintained multiple responsive client web applications utilizing React, Node.js, Express, and databases, with an emphasis on seamless frontend-backend integration.
- **End-to-End Ownership:** Managed complete software development lifecycle from initial data schema design to UI execution, performance tuning, and server provisioning.

FEATURED ARCHITECTURAL HIGHLIGHTS & SYSTEMS

Straw Hat Devs Developer Platform | strawhatdevs.com *Mar 2025 – Present*

- Complete end-to-end edtech platform featuring interactive courses, user authentication, streaming integrations, and observability.
- Tech Stack: Next.js (App Router), TypeScript, PostgreSQL, Supabase, Sanity, Axiom, Vercel CI/CD

Pony Up — Self-Service IoT Retail Kiosk | Staff Engineer *Jun 2025 – Present*

- Hardware-integrated Android kiosk system handling point-of-sale payments, barcode/QR scanning, cash drawers, and thermal receipt printing.
- Tech Stack: React Native, Expo, Android Kiosk Mode, IoT Peripherals, REST APIs

Chuck E. Cheese — Web Experience Platform | **Senior Engineer** ***Jun 2025 – Present***

- Rapid-turnaround customer interaction web app featuring frictionless QR code scanning, dynamic menus, and responsiveness. Built in 2 months.
- Tech Stack: Next.js, React, Tailwind CSS, CloudFront/AWS, Automated CI/CD

HeyDay Skin Care — Booking & Shop Engine | **Lead Frontend Developer** ***May 2023 – Present***

- High-concurrency booking widget and eCommerce app integrating third-party APIs (Boulevard), real-time inventory, and Redis caching.
- Tech Stack: React, Node.js, NestJS, Redis, AWS ECS/Lambda, Sentry, Boulevard API

Vmeals — CRM & Subscription Management Platform | **Team Lead** ***Jan 2023 – Feb 2023***

- Automated meal subscription workflow system with custom plan builders, billing cycles, and automated customer notifications.
- Tech Stack: Next.js, Node.js, Express, PostgreSQL, AWS, GitHub Actions

AMS Test Automation & Release Platform | **Lead Developer** ***Jun 2022 – May 2023***

- End-to-end regression automation suite integrating with Bitbucket Pipelines to validate pre-release mobile and web builds.
- Tech Stack: Playwright, TypeScript, Bitbucket Pipelines, Docker

EDUCATION

Bachelor of Engineering (B.E.) — Computer Science & Engineering | **Anna University** ***2015 – 2019***

Tamil Nadu, India
